Orthopaedic Hospital Needs Expansion Funds

Linda Smith, 11, daughter of Mr. and Mrs. Richard Smith of 23013 Heyler St., has been admitted as a patient at Los Angeles Orthopaedic Hospital, it was announced today.

Torrance is one of the many Southland communities which sends its handicapped children to Orthopaedic Hospital to become straight and strong.

While the hospital serves private patients, no disabled boy or girl through the age of 21 who can benefit from orthopaedic care, is refused admission regardless of race, creed, place of residence or ability to pay. Since 1920, more than 84,000 crippled children have been cared for at Orthopaedic Hospital.

Although operational funds are provided Orthopaedic Hospital through such sources as Los Angeles Area Community Chest, its capital funds for expansion and new building must be raised through public appeal, officials pointed out.

Residents of communities where children receive help were urged to support the institution's current fund drive for a new \$7,500,000 children's center, where care of Southland's growing numbers of crippled children can be continued.

Contributions to the fund drive may be sent to Orthopaedic Hospital, Los Angeles 7.
